

# Betting Sites Guide: The Best Betting Sites and How to Get Started

If you have never played at one of the best betting sites before, then no problem. We are here to help! Our guide to betting sites is here to give you a step-by-step walkthrough of what you need to do. After getting to the end of this guide to **finding top betting sites**, you'll know how to make an account, deposit, get a bonus, and withdraw winnings. So, what are you waiting for? Read away!

## Step 1: Finding the Right Betting Site

When you first start out on your betting journey, you will want to find the right bookie for you. This is the first and most important step. One of the primary things you need to ascertain is whether the bookie is legal or not. **They should have all the correct licenses and credentials** to offer a sportsbook. What's more they should actively promote responsible gambling and should have such partnerships in place for you to see.

Next, you actually would like a list of the best sites. Luckily, we have created a list of the [best betting sites in the UK](#) and we have tried and tested them all for you. They all have been licensed by the UK Gambling Commission and you can trust them. What's more they also have accredited partnerships with GAMSTOP, GambleAware, GamCare, and other safe betting organisations, so you can be sure that they will have no ill intentions.

## Step 2: Register and Verify Your Account

Once you have decided on a bookie it is time to register. Now for some of you this will be a simple process, but for others who are less tech-savvy or simply not attune to the online world it could be more difficult. Therefore, our team of hard-working experts have put together **a simple list of instructions** that anyone could follow. These steps have been developed through working with a series of test groups.

1. Find the 'Sign Up' button and click on it
2. Enter your details into the registration form that will pop-up
3. You will need to verify your account through clicking the link sent to your email address
4. Log-in to your betting account once more
5. Upload ID to your newly created betting account e.g. Passport, driving licence
6. Start betting!

As you can see, these steps are the epitome of simplicity. They are all very similar at any legitimate online bookmaker. It must be noted that without a valid ID you will not be able to partake in any form of betting at the site. So, make sure you have your documents handy when it comes to sign-up, you don't want to miss out!

## Step 3: Making Deposits and Claiming a Bonus

The next step in the process is to actually deposit money into your account. Usually this will be tied in with registration, but we will still help along the way. It can be daunting for some of you to proceed in an online transaction, that is why we are here to help. Below, you will find a simple list of steps to take in order to **make your first deposit** at an online betting site.

1. Go to your account section at the bookie
2. Find the section marked 'deposit'
3. Choose your preferred payment method
4. Enter you details accurately
5. Add the amount you wish to deposit
6. Confirm the transaction and see your funds in the balance

This is a pretty simple procedure and will be the same for every deposit. If you wish to claim a bonus when depositing, **you have to 'opt-in'**. You either do this on the deposit page or find the dedicated bonus section where you will find the bonus and have to opt in there. It is pretty easy to do, and most bookies will have guides to help you along your way. Remember if you don't claim a bonus or check a box you won't be entitled to any free bets or similar.

## Step 4: Keeping Your Money Safe: How Bookies Manage Your Funds

We understand you may be anxious when it comes to keeping money at an online betting site. How do they keep it safe, and how are you sure you won't be scammed? Well first of all, as we already mentioned any site we feature with us goes through the highest security inspections to make sure they adhere to our

standards. Secondly, every site **needs to provide an SSL certificate** that encrypts users' information end-to-end. Lastly, they have to have a partnership with IBAS (Independent Betting Adjudication Service) at hand. This ensures any disputes will be heard through a neutral organisation and you can raise any complaints with confidence.

## Step 5: Withdrawing Money from Betting Sites

The last step you need to know about is withdrawing your hard-earned winnings. It's everyone's favourite step. This is very much similar to depositing but in reverse. It is important to note that you usually need to use the same method to withdraw as you did to deposit. So without further ado, here are the **steps needed to withdraw money from all betting sites in the UK.**

1. Go to your account at the bookie
2. Find the withdraw section
3. Select the amount you wish to withdraw
4. Confirm the transaction
5. Depending on the payment method it could take a few days to appear

That is all it takes. It is unbelievable, we know. Yet within **such a few small simple steps** you will be laughing all the way to the bank. The way in which technological advances have allowed for bookmakers to offer such a smooth service is staggering.

Now we are at the end of our detailed guide, we hope we have provided some valuable insight for you to cherish. Now you are past the first steps, we are sure you want to know more.
